Tnol Tuteng High School
2018-2023

WESTERN UNIVERSITY 2024 - PRESENT

Bachelor of Desgin and Creative
Art

L ANGUAGE:

Khmer — Native
English — Advavance

PROFILE

Fourth-year Creative Design student passionate about UI/UX design. Proficient in Figma, with strong problem-solving, user-centered thinking, wireframing, prototyping, user flow design, and design system skills. Eager to create intuitive digital experiences and grow as a UI/UX designer.

PROJECT EXPERIENCE

CUSTOMER E-COMMERCE APP | 2025 - 2026

- Dedicated 1 year of hands-on experience to designing a complete, user-centered digital marketplace application.
- Developed intuitive product navigation, browsing interfaces, and secure checkout workflows tailored specifically for the local Cambodian market.
- Integrated familiar local payment gateways (such as KHQR and ABA) to ensure a trustworthy, seamless, and frictionless user experience.

STOREX DRIVER APP | STARTUP PROJECT (ONGOING) | 2026 - PRESENT

- pearheaded the UI/UX design of a driver delivery application entirely from scratch (zero to one) using Figma.
- Created detailed wireframes and high-fidelity prototypes focusing on order tracking, delivery management, and intuitive driver workflows.
- Iterated and improved designs based on continuous user feedback to ensure optimal usability and on-the-job efficiency for drivers.

STOREX LANDING PAGE | WEB/UI DESIGN PROJECT | 2026

- Designed a modern, high-converting landing page to clearly communicate the platform's multi-sided ecosystem, connecting customers, sellers, and delivery drivers.
- Utilized a clean dark theme, structured card layouts, product mockups, and clear typography to create a premium, technology-focused visual hierarchy.

SPORTCOURT | SCHOOL PROJECT |

- Designed a responsive sports venue booking app from wireframes to high-fidelity UI.
- Conducted research and mapped user flows to streamline the core booking experience.
- Built a reusable Figma design system using Auto Layout, components, and global styles.
