PROFILE

Fourth-year Creative Design student passionate about UI/UX design. Proficient in Figma, with strong problem-solving, user-centered thinking, wireframing, prototyping, user flow design, and design system skills. Eager to create intuitive digital experiences and grow as a UI/UX designer.

PROJECT EXPERIENCE

STOREX DRIVER APP | STARTUP PROJECT (ONGOING)

- Driver E-Commerce App | UI Design Project
- Designed UI screens for a driver delivery application using Figma.
- Created wireframes and prototypes for order tracking and delivery management.
- Focused on usability, user experience, and efficient driver workflows.
- Improved designs based on feedback and user needs.

STOREX LANDING PAGE

- Problem: Create a landing page that clearly explains Stoxed's multi-platform ecosystem.
- Goal: Help users quickly understand the relationship between customers, sellers, and drivers.
- Design Approach: Used a modern dark theme, clean card layouts, product mockups, and clear typography to create a premium technology-focused experience.

SPORTCOURT - (PERSONAL PROJECT)

- Designed a responsive sports venue booking website from wireframes to high-fidelity UI.
- Conducted research and created user flows to improve the booking experience.
- Built a reusable design system with components, typography, colors, and Auto Layout in Figma.
- Designed key pages including Home, Venue Details, Booking, Schedule, and User Profile.
- Focused on creating an intuitive, user-centered interface with clear navigation and visual hierarchy.
